

2023 Diabetes Self-Management Education Services (DSMES) Learning Collaborative General Interest Form

On behalf of the University of Kentucky Healthcare, Kentucky Regional Extension Center and affiliated partners we would like to thank you for your interest for more information about the 2023 DSMES Learning Collaborative.

This will be an excellent opportunity for education and improvement in referrals to DSMES. This 9-month process by which healthcare organizations come together to learn from one another and from experts in the field, and then undertake small tests of change to reach self-identified objectives within their own organization. The goals of this collaborative are to increase referrals to DSMES services by improving processes to identify patients who are eligible for DSMES, simplifying the referral mechanism, increasing knowledge of DSMES among providers, and increasing confidence and skills in referring eligible patients to DSMES.

Please provide the following information, so we may contact you to schedule a short call to provide further detailed information, expectations, and answer any questions for participation in the collaborative.

1. Organization Name & Address:

2. Primary Contact Name:

3. Primary Contact Email & Phone Number:

4. Please provide the number of Sites/Locations in your organization:

5. List three date/time options to schedule this call:

- a) _____
- b) _____
- c) _____

Please email this form to Jessica Elliott, DSMES Up for It Learning Collaborative Director, at the following email address: jeelli2@uky.edu
